

# GENUINE LEADERSHIP

*awakening the 8 human intelligences*

**OSMA Flagship Program**

This Leadership Program will be held in 3 modules  
over 9 months

# Why we need Genuine Leaders...

In times when transformation has become the new norm, we need (a new) Leadership to address the challenges that organizations and whole humanity are facing. Genuine Leaders call forth all the innate intelligences and the full potential in themselves and in those they interact with to shape a sustainable future for the generations to come.

In this program we draw upon ancient wisdom traditions that offer a map to unfold the 8 intelligences that are inherent in the human. Blended with contemporary approaches you will learn new skills and tools that increase your capacity as a Genuine Leader.

This OSMA flagship program will be held in 3 modules over 9 months, the first program starts in April 2021.

The program is hosted by OSMA Leadership Academy at the beautiful island of Krk, Croatia

# The 8 Intelligences of Genuine Leadership

In this program we draw upon ancient wisdom traditions that offer a map to unfold the 8 intelligences that are inherent in the human:

- Creation Intelligence
- Presencing Intelligence
- Exploring Intelligence
- Pathfinding Intelligence
- Sustaining Intelligence
- Predictive Intelligence
- Decisive Intelligence
- Transformational Intelligence

## Who will benefit from this program?

This program is for leaders and change agents who

- Want to create a sustainable future for organizations and the wider environment
- Want to release and live their fullest potential
- Want to learn new skills and tools of Genuine Leadership
- Want to reconnect to their innate intelligences and increase their leadership capacity
- Want to create and hold containers for growth and transformation

## What will you learn?

During this program participants will learn to:

- Grow their ability to innovate and co-create
- Build the quality of being present and appreciative
- Strengthen their courage to venture into the unknown
- Reconnect to purpose and set a clear intention for the future
- Attend to wellbeing and growth for self and others
- Recognise invisible patterns and trends and create a powerful vision
- Develop clear strategies and put them into right action
- Work with momentum and the flow of transformation

**If you have the courage to step forward to co-create the future we need in these tumultuous times, then we have a practice that can help ... and the experience and commitment to step forward with you**

# YOUR GUIDES

## Dr. Michael Paula

Born and raised in Vienna, Austria. With a degree in Industrial Engineering I started to work at the University of Technology in Vienna as an Assistant Professor in the field of leadership and organizational theory. I did my Dissertation on planning methods in the consultancy business. Over fifteen years I was in leadership positions in large international organizations like Austrian Industries and Siemens. I became self-employed in 2001, focusing my work on creativity, leadership and cultural change. Some major clients I have worked with, supporting them in transformational shifts and leadership development have been Siemens, BASF, Deutsche Post, City of Vienna, Daimler, Syngenta.

During my deep training in Earth Wisdom at the Ehama Institute in New Mexico for almost seven years I learned the power of ancient designs and tools that are more than adequate for personal and organizational development, based on a profound shift in consciousness. More than ever my passion is to blend ancient Earth Wisdom with modern approaches - in service to individuals and organizations to discover their purpose and release their creative potential.

## Mojca Križnar

I am Slovenian by origin. The world started expanding for me already during student years. I studied Economy in Croatia and completed my Masters from International Relations at the CEU in Hungary. I started my professional path in media and culture. Ever since 1997 I've been devoted to raising awareness on the value of human dimension in organisations, and developing human potential by in-house and open programs internationally. That said, my personal development led me from being a consultant to becoming a coach, trainer and catalyst. Through years I've attended many accredited programs that paved my way, amongst others: Art of Hosting, Participatory Leadership, TotalSDI, Stonebow TTT, Evocative Leadership, Points of You, Create & nMAPS Coaching, Constellation Camp, Genos Emotional Intelligence, etc.

For solid record;); I've been working in different leadership roles within Hill International for 21 years, and I've been a part of Nowhere catalysts team since 2012. Today I support organisations on their transformational journeys by shaping wholesome cultures and evoking genuine leadership. I have recently united the years of precious experience and learnings under the newly established brand Blue in Green. And I became Points of You Country Leader for Slovenia along the way;). I joined OSMA due to the calling to share the best of the practice and generated wisdom with you!

## Nina Pavlovska

I am transformationist. I design learning experiences that offer personal discovery and leadership development. Inspired by the human creative potential I coach individuals and facilitate group processes that promote innovation, authenticity and empower action. My study and work have taken me around the world offering many opportunities to work with and across different cultures. I resonate strongly with the mission of OSMA and use it as a new platform to ignite the spark of purposeful leadership in the corporate sector.
